

“And the winner is...

...the environment!”

Mira ECO Showerhead

Our new Eco Showerhead can help wash away your carbon footprint. It delivers the same invigorating shower experience you would expect from a Mira but **saves up to 75% water**. And with three full coverage spray patterns, rub-clean nozzles for easy cleaning and of course the all round greener way to clean, everyone's a winner.

DESIGNER AWARD FOR BATHROOMS
PROJECT COST UP TO £15K

Winner Gemma Hewick, Ripples Newbury

This award rewards the skill of the bathroom designer in their aesthetic results, but also the use of budget, solving problems and meeting the brief.

Gemma has successfully defended her title with this stylish and contemporary room that manages to exceed the customer's difficult brief. Initially, the client wanted to create a shower room but she often had guests who loved bathing. So Gemma's challenge was to fit a full suite of products into a 3m x 2m room with many wooden beams. The final cost of the project, including installation, was £14,704.

Judges' comments

"Gemma has created a great atmosphere and a great use of layout and contrast to make the most of what is, after all, the typical British bathroom. Although she had to work with many constraints she managed to get both a shower and a bath in while maintaining a great respect for the room's aesthetics."

Finalists

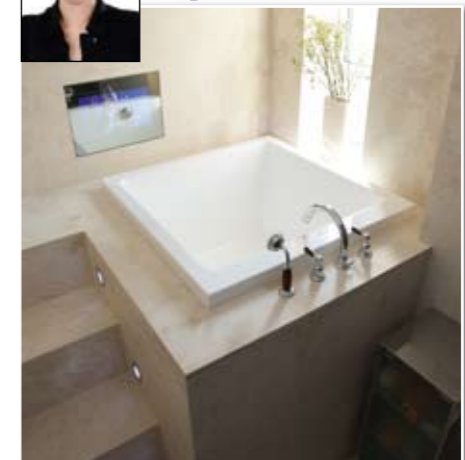

Annie Stevens,
Annie Stevens Designs

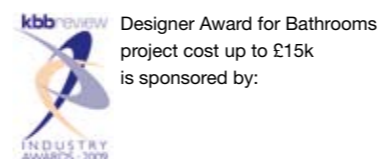

"A great all-round achievement for the budget. Annie has managed to merge the bathroom into the bedroom seamlessly to create a living space that works really well. There's some tricky angles in there too that she has dealt with impressively."

Rachel Davies,
Taylors Etc

"An understated colour palette with touches of styling is really nice, but the Japanese-style plunge bath is an inspired product choice that gave the client exactly what they wanted and more."
